# ShibaWallet

## WHITEPAPER

V2.0

# INTRODUCTION

We started to think and launch the project in Aug, 2021, called ShibaWallet Pro, which is the fastest-growing decentralized wallet for NFTs and meme tokens. Our goal is aiming for easy-to-use wallet for web3 users, compared to other wallets, you need to understand admittedly cryptic knowledge of DeFi and wallet.

ShibaWallet mitigates the process and experience, and it marshaled all NFTs and meme coins into one place, one app, one safe environment of the transaction execution.

Ultimately, it's totally non-custodial and self sovereignty. The private information of these shiba users won't leave the the device and never upload to the central cloud. The multiSig & multichain smart contracts keep the assets safer than ever! Every shiba is ready to use that for certain purposes.

# DISCLAIMER

WHITEPAPER has been published and issued by ShibaWallet For informational purposes only and is required to be read alongside the ("Terms") if the prospective purchaser plans to use any of the ShibaWallet products. This Whitepaper is a working document and is subject to changes and errors. Any purchase or use of services from ShibaWallet creates a binding arbitration agreement (subject to ShibaWallet community) between ShibaWallet and the user/purchaser as the Terms are outlined.

This Whitepaper does not constitute an offer or invitation, or any other sale or purchase of shares, securities, or any of the assets. Any possession of SHWA token shall not grant any rights in any form to the user, including but not limited to any rights of ownership, interest, profit, redemption, property or intellectual property, decision making, or any other such rights, such as any rights of financial or legal nature, in ShibaWallet community. SHWA token may be used for protocol and ecosystem governance which has no bearing to the community project or its affiliates sub-projects.

# WHY SHIBAWALLET

"Embrace Web 3.0 which is reshaping the internet and financial structure; A Web 3.0 Wallet is precisely coming out to help ordinary people into the magic world!" -- Johnny Cheung

ShibaWallet devised a set of tools and intellectual systems to help mitigate security risks while transact with smart contracts on public blockchains, including but not limited to Ethereum, BSC, Polygon, etc.

As a Web 3.0 shiba users, interact with smart contracts is a very common thing while you look through dapps, sometimes it put you at risks if some dapps are malicious and try to deceive your grant access and finally take your assets out from you account without your confirmation, sounds crazy! Right? This is what ShibaWallet is going to prevent! Recognize the risks while transacting with smart contracts; Check all permission (refers to allowance in smart contracts) that you were granted to, so that you can revoke that permission at any time from ShibaWallet app.

# MISSION

## 1. Non-custodial

Wallet's private key or mnemonics will never leave shiba users devices.

## 2. MultiChain & MultiSig Safe

Fully support of dozens of EVM-based blockchains. With multi-chain & multi-signs safe contracts keep assets safer than ever. Along with security check prior to every transaction.

## 3. NFT Related and Index

Marshal doge/shiba user assets in different blockchains and analyze the market trend, derivatives, explore the lurking NFTs for shiba users.

## 4. LaunchPad

Good meme coins launch on ShibaWallet and get soared by shiba community and market.
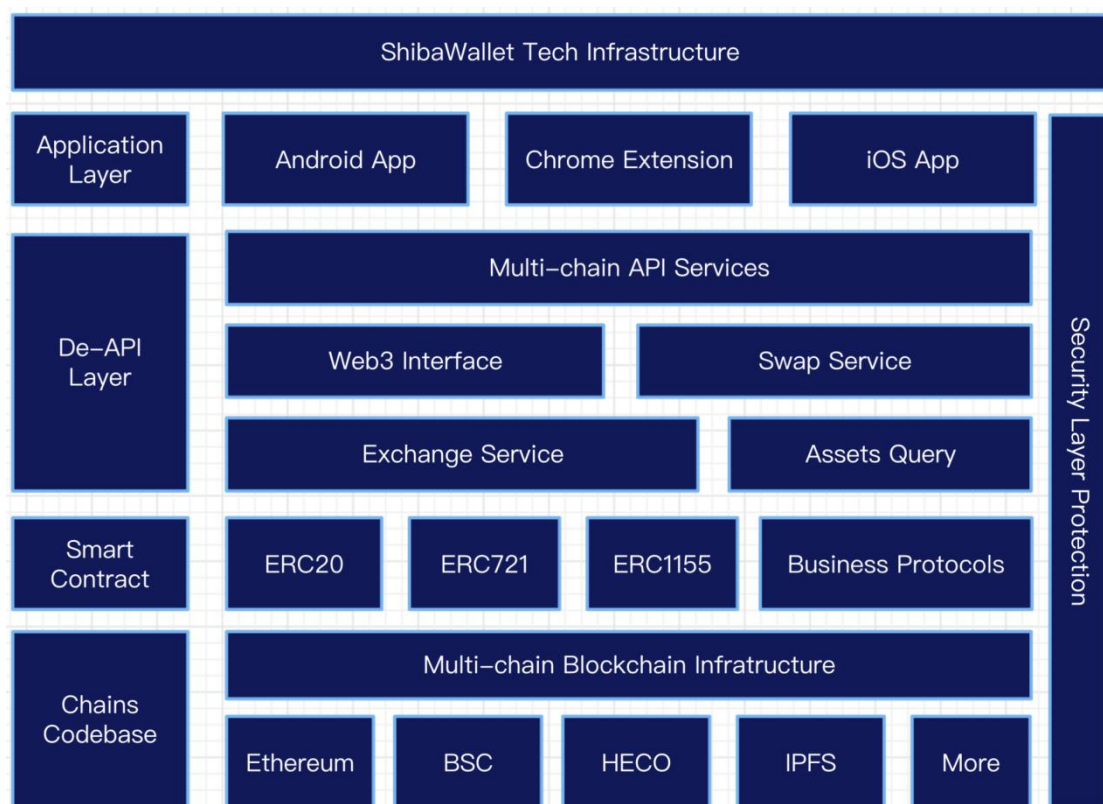

# GOVERNANCE

SHWA is the governance token for community to propose, vote and implement changes to the ShibaWallet decentralized products and related dapps or features.

Any addresses with more than 2.2 million SHWA tokens delegated to it may propose governance actions, which contain finished, executable code, applied ShibaWallet to refine core features and improvements. When a proposal is created, the community can cast their votes during a 7-day voting period. If 4.4 million at least votes are cast for the proposal, it's queued in the timelock period in 3-day and then schedule the features/refinement point into the development plan; Finally, the new changes will be notified and updated to SHWA holders first when it's finished development.

# TECH INFRASTRUCTURE

Our mission: One Crypto Safe Wallet, all NFTs and Meme coins aggregator arena.

Our users can view, transfer, mint, publish, and burn coins/tokens and NFTs in ShibaWallet platform. With highly scalability on chains, all actions or executions have been performing on decentralized architecture, as safe as houses.
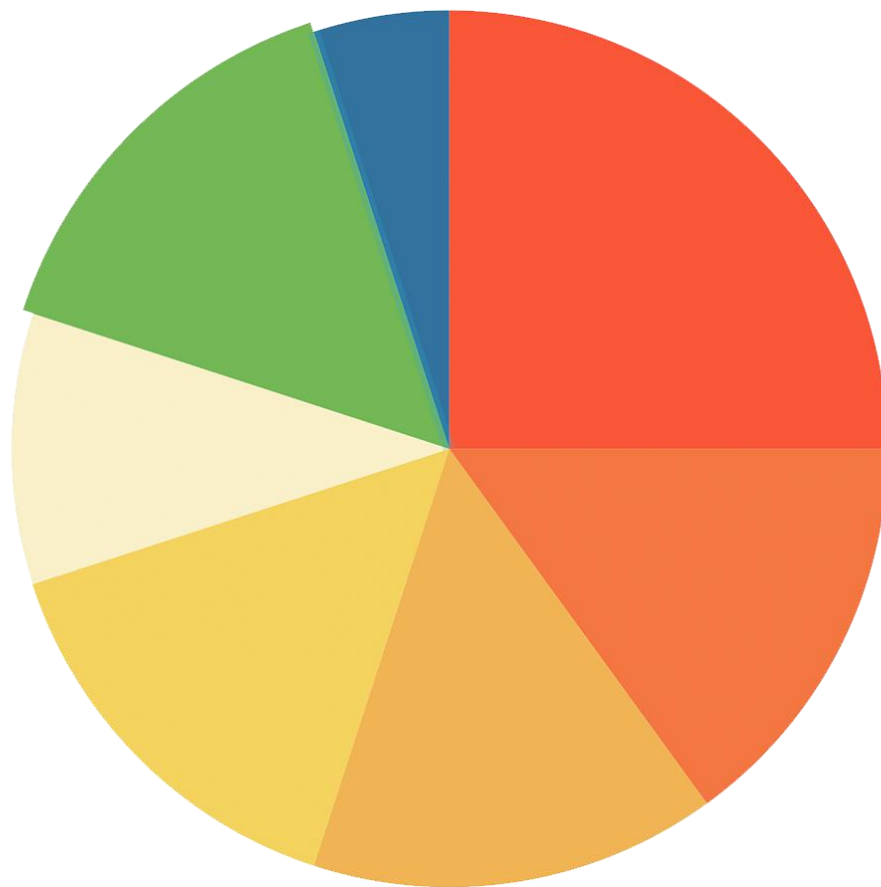

# TOKENOMICS

1.Token Allocations

2.Win-win, every single holder earns;

3.Binance Smart Chain Contract:

[0x7b8274ccecd5bbcfe18958c3db6471c5e3e1fbbf](0x7b8274ccecd5bbcfe18958c3db6471c5e3e1fbbf)

- 🟥 Foundation Reserve 25%
- 🟧 Pro Inc. Investors 15%
- 🟧 Ecosystem Community 15%
- 🟨 Token Sale 15%
- ⬜ Team 10%
- 🟩 Retail Investors Rewards 15%
- 🟦 Advisors 5%

# ROADMAP

➢ **Aug. 2021**

➢ **Market Research and develop on Ethereum and Binance Smart Chain on mainnet**

➢ **Q3. 2021**

➢ **Supports Polygon, Arbitrum, Doge on mainnet**

➢ **Cool Launch project & published to Google Play**

➢ **Q4. 2021**

➢ **Launching IDO on PancakeSwap and SushiSwap**

➢ **Participate Hackathon on DoraHacks**

➢ **List on CoinMarketCap**

➢ **Q1 in 2022**

➢ **Market Operation**

➢ **Publish ShibaWallet on Chrome Extension**

➢ **Reinforce wallet infrastructure**

➢ **Constitute user community range**

https://shibawallet.cc

- ➢ **Q2 in 2022**
- ➢ **Promote the growth of ShibaWallet Ecosystem by expanding our number of online entry points**
- ➢ **Supports more public chains steadily and continuously, implement**
- ➢ **Participate Hackathon competition constantly for intensifying the infrastructure capability of wallet and advancing public awareness.**

- ➢ **Q3 in 2022**
- ➢ **MultiSig safe contracts deployed on mainstream EVM-based blockchains**
- ➢ **Solana & NEAR protocol support**

- ➢ **Q4 in 2022**
- ➢ **Integrate MoonPay as the fiat to cryptocurrenty schema and implement into ShibaWallet apps**
- ➢ **Flash Swap with low fees**
- ➢ **Flow blockchain support and listing NFT directly**

- ➢ **Q1 in 2023**
- ➢ **Mint NFT into multiple marketplaces within**

one-click and low fees

➢ **Listing and manage the NFTs you're saling at**
